bat spd will produce occ pwr

PLAYER SUMMARY

beautiful swing, with balanced set up, good pitch selection and short path from barrel to ball. handles whole str zone and goes with the pitch. can turn on inside half and show pwr from cf to rf. this kind of swing on a 14yo can only come through a lot of hard work. good jumps and reads in o.f. needs to work on arm strength. advanced hitter who should grow into middle order bat in HS with a good chance to play at a higher level.
